

## INFRA-RED LAMPS

Free standing infra-red lamp 1,8kW for 160cm fabric

Double infra-red lamp 6kW to be attached to an 320cm ink jet plotter

*\*The machine may be different than the picture*

Top Digitex drying systems are based on infra-red technology and could be sized to customer request. The standard module of the drying unit consists of an infra-red lamp with a control panel mounted on a mobile stand but changing dimension, type, power and number of lamps we are able to meet every drying requirement free standing or attached to the machine.

LAMP NUMBER	1 to 4
VOLTAGE SUPPLY	230V or 400 V
INSTALLED POWER	1,5 kW to 12 kW
INFRA-RED TECHNOLOGY	Lamp or panel
DIMENSIONS	1,3 m to 3,2 m
