

INFRA-RED PANELS AND LAMPS

Double infra-red lamp 6kW to be attached to an 320 cm ink jet plotter

Infra-red panel 4kW for 160cm fabric

*The machine may be different than the picture

Top Digitex drying systems are based on infra-red technology and could be sized to customer request. The standard module of the drying unit consists of an infra-red lamp with a control panel mounted on a mobile stand but changing dimension, type, power and number of lamps we are able to meet every drying requirement free standing or attached to the machine.

LAMP NUMBER	1 to 4
VOLTAGE SUPPLY	230 Vor 400 V
INSTALLED POWER	1,5 kW to 12 kW
INFRA-RED TECHNOLOGY	Lamp or panel
DIMENSIONS	1,3 m to 3,2 m
